## HEALTH AND SAFETY POLICY

We are committed to protect the Health and Safety of employees, customers, suppliers and the communities where we operate. It is our intention as a responsible corporation to ensure that we operate our business taking into consideration Health and Safety issues and their requirements. We are committed to:

Comply with all relevant Health and Safety rules and regulations, interested parties and company established requirements.

Provide a safe and healthy workplace for our employees, contractors and visitors to prevent work- related injury and ill health.

Regularly communicate, participate and consult with our workers in health and safety requirements.

Continuously improve our health and safety management system and to review the objectives to enhance performance.

Cooperate and engage with the community, suppliers, customers, contractors, government agencies and other non-governmental organization to ensure safe and healthy working environments.

Communicate this policy throughout the organization and make it available to interested parties upon request.

Conduct risk management and mitigate those that have significant health and safety hazard taking into consideration the internal and external issues and the requirements of interested parties.

Investigate the causes of accidents and incidents and to take immediate action to prevent injury and ill health and prepare for emergencies and other contingencies.

Provide employees with facilities, information and training to meet assigned responsibility.

All employees and external parties are required to contribute towards the achievement of this policy.
